FOREWORD

This Client Service Charter has been developed to monitor efficient service delivery and serve as the blueprint for the Gushegu Municipal Assembly (GMA). This will help to further facilitate the standardization of the services delivered and to communicate to the public the exact services that GMA delivers. It details the service standards that GMA is committed to delivering to our stakeholders and outlines a complaints procedure for our esteemed stakeholders who may have challenges with our services.

Through this document, the GMA will be able to communicate to stakeholders vital information about what it commits to do, how to contact us, what to expect by way of service standards, and how to seek remedy for unsatisfactory service. It will enhance the participation of civil society and interest groups in the provision of services as well as provide transparent mechanisms for contact, accessibility and complaints.

Another fundamental reason for the development of this Charter is to highlight to our clients, the various services offered by GMA, the procedures to follow to access them, and the timeframe within which to obtain each service.

It is our expectation that stakeholders who engage GMA are served in line with our values of being professional, ethical, efficient and responsive. Our commitment as an entity is to ensure that we provide the highest standards of excellence in client service delivery.

We welcome your feedback as we work together to create a customer-centric culture and to deliver value to you: our stakeholders.

.....
Osman Musah
(Municipal Coordinating Director)

The Gushegu Municipality is one of the Sixteen (16) administrative MMDAs of the Northern Region of Ghana. The Municipality prior to its recent elevation was created by an Act of Parliament (Act 18, 1959) and by the Legislative Instrument (LI) 1783. However, in July, 2017 the District was elevated to a Municipality status with L.I.178 by H.E. the President of the Republic of Ghana in accordance with the relevant provisions of the law and to meet the fast urbanising nature and growth of the population. The elevation to a Municipal status will ensure that development is spread to all parts of the area.

The Gushegu Municipality is autonomous in relation to planning, budgeting and implementation of projects.
